ABOUT US

OCDCODE was founded in 2021 and is a company that operates in the field of software solutions and digital marketing, combining creativity and expertise in the computer industry. We offer services in various fields, including web applications, mobile applications, graphic design, business development, and digital marketing. We have a track record of successful projects in Egypt and the Gulf countries, such as Saudi Arabia, the UAE, and Kuwait. Our team utilizes advanced technology to create solutions that enhance efficiency and productivity, whether for a startup or an established company.

We are always committed to quality and customer satisfaction, making us a prominent partner in the technology industry.

Our Services

Web Application

Mobile Application

Erp System

Graphic Design

Social Media

Promotional Photography

Business Development
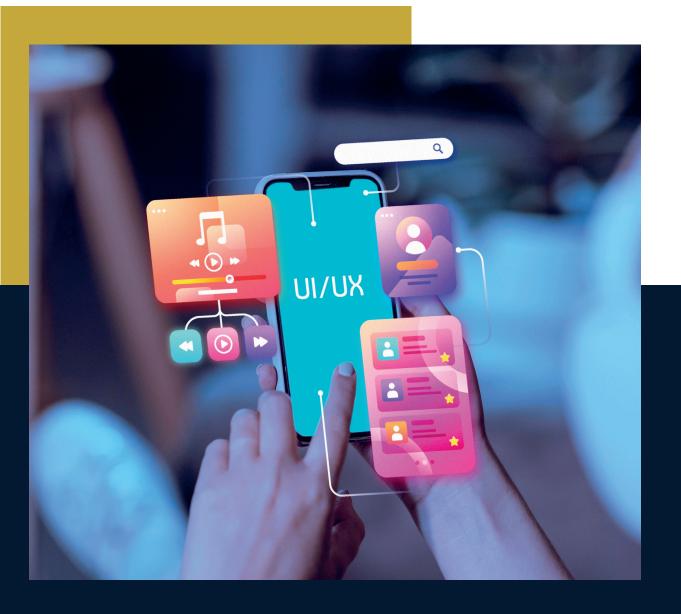

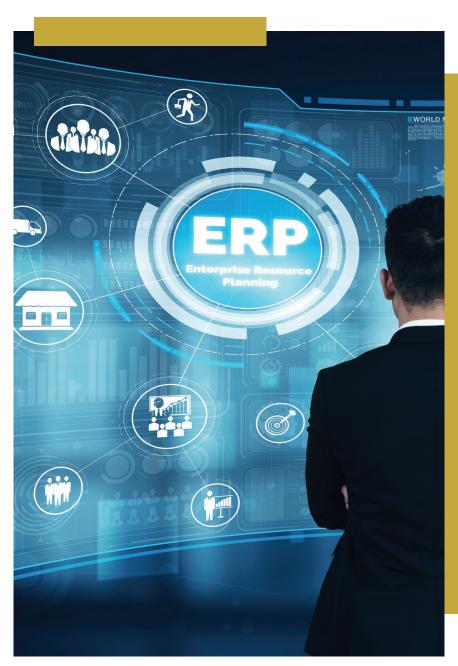

Web Applications

Web applications are websites specifically designed to showcase your services or an e-commerce platform that makes it easier to display your products and streamline the buying and selling process. We create web apps that are user-friendly, responsive, and tailored to enhance your online presence and business operations.

Mobile Application

Mobile applications are one of our main services. We aim to provide apps that make it easier for users to access your services on their mobile devices, whether Android or iOS.

ERP Systems

These are systems that enable you to efficiently manage your organization and facilitate communication between management and employees. They cover various functions, including attendance and departure tracking, accounting systems, inventory management, and provide an integrated organizational structure for your business. These solutions are designed to streamline operations and improve overall efficiency.

Graphic Design

Web applications are websites specifically designed to showcase your services or an e-commerce platform that makes it easier to display your products and streamline the buying and selling process. We create web apps that are user-friendly, responsive, and tailored to enhance your online presence and business operations.

Social Media

It is one of the most important modern marketing tools, as it facilitates the connection between service providers and clients. Through it, you can showcase all your services and products, and target the specific customer segment for your offerings. OCD-CODE helps you present them in a professional manner.

Promotional Photography

is a type of photography aimed at promoting a product, service, or brand. Through it, we can professionally photograph your products, capture the interiors and exteriors of shopping centers, as well as photograph conferences and events. Additionally, we can create short videos professionally for use on social media platforms.

Business Development

It is the process of improving and enhancing growth and profitability opportunities for a company or organization. This includes a range of activities aimed at expanding the business, attracting new clients, improving products or services, and entering new markets. Business development strategies may include tactics such as business partnerships.
